

Back'light

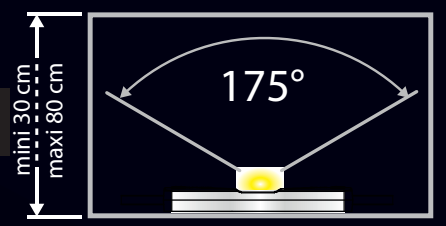

Led

In the same dynamic as the Domino Sign Rigid'bar, the Domino Sign Back'light is dedicated to the lighting of single-sided light boxes, even those with a very shallow depth, with diffused or opaque edges.

The very flat diffusion lens coupled with a powerful luminous flux allows for a homogeneous and qualitative rendering over a very large width: a small number of modules for a large illuminated surface!

- Thin and flat module
- Applications from 30 to 80mm deep
- Very good heat dissipation
- Angle: 175°.
- 5 year warranty

Back'light

24 V

DRIVER

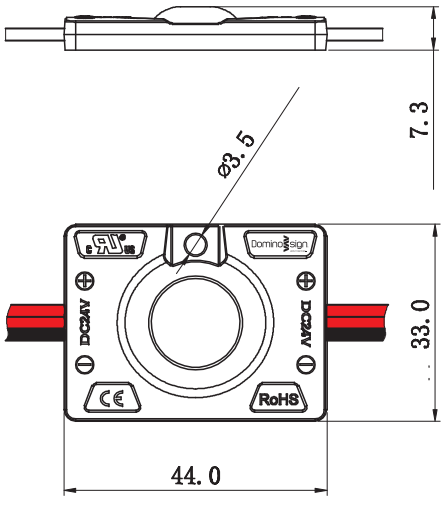

175°

IP65

Ta 35° (min -25° / max +60°)

RoHS

Back'light	White 6500 K
Luminous flux (lm)	390 lm / 3 LED
Power consumption (W/module)	1,6
Animation	yes
Dimmer	yes

Centre distance
mini : 60 mm
maxi : 175 mm

Packaging - Warranty
Packaging: 2 strings of 12 modules per bag (24 modules)
Lifetime: 50,000 hours
Warranty: 5 years for 8 to 10 hours use per day
