

Dmax2

Domino Sign Dmax2 are specially used for the illumination of 3-sided PMMA box letters, or aluminium edges and diffusing face. They are also suitable for backlighting letters and logos in colour.

The Luminous flux allows the use of a small number of modules while offering a light intensity comparable to neon or fluorescent tubes for a low power consumption.

- SAMSUNG
- Anti UV
 - Driver
 - IP 68
 - 150° angle
 - 8 year warranty
 - Available in 7 colours
