

Edge Box

Domino Sign Edge Box is the solution for the lighting of double sided boxes with stretched canvas or PMMA.

The intensity of the luminous flux and the angle of illumination offered by the Fresnel lenses allow a homogeneous and powerful illumination by positioning the Domino Sign Edge boxes at the periphery.

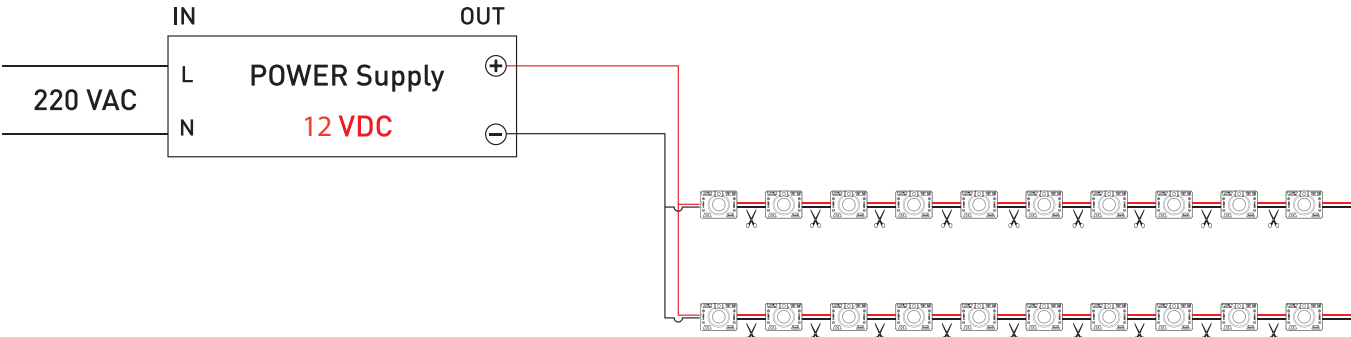

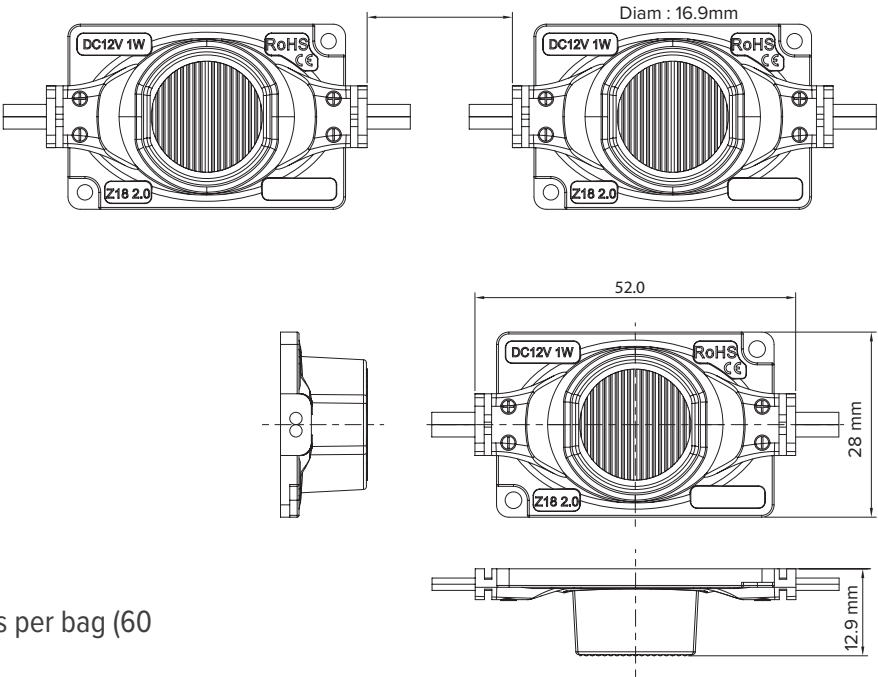

- Double-sided housing from 9 to 25 cm deep
- Peripheral lighting
- Worked light brush 10° x 45
- Can be cut by the unit

Edge Box	White 9000K
Luminous flux (lm/module)	165
Power (W)	2
Animation	yes
Dimmer	yes

Centre distance : 65 mm min / 182 mm maxi

Series connection : chain of 20 modules in series

Can be cut by the unit

Packaging - Warranty

Packaging: 20 modules per chain, 3 chains per bag (60 modules)
Warranty: 3 years for 8 to 10 hours use per day
