

Logo'pop Max RGB digital

New

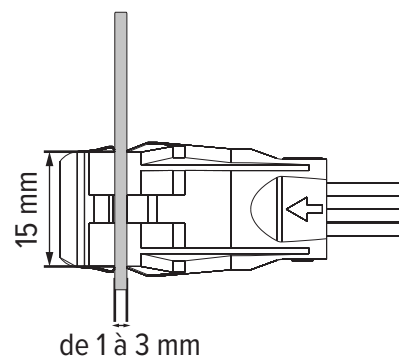

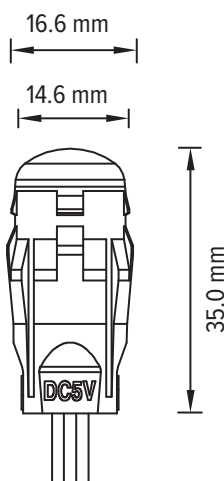

With «Logo'Pop Max RGB digital», you can create shapes of any size and faithfully reproduce lettering or logos.

With its RGB and digital technology, you have the possibility to set or change colors globally but also to use the many programs that allow scrolling in «Chenille blanket» mode (more than 200 programs).

- ☒ Led RGB digital
- ☒ (+200 programs)
- ☒ Divisible to the unit
