

# Dmax2 Mini

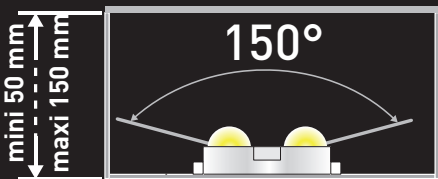

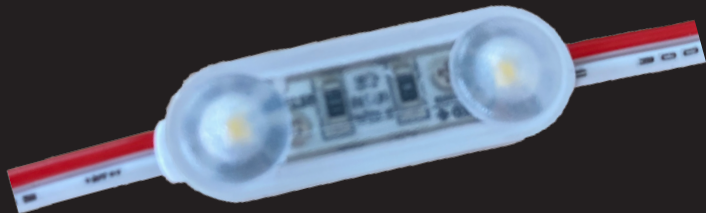

The Domino Sign Dmax2 Mini's small size makes it particularly suitable for lighting very small box letters and thin letters.

In particular, it is specifically designed for the lighting of 30 mm PMMA LED blocks.

In addition, Domino Sign Dmax2 Mini is specially designed for backlighting.

The luminous flux as well as the 150° angle of the lenses allow the use of a small number of modules while offering a very high luminous intensity.

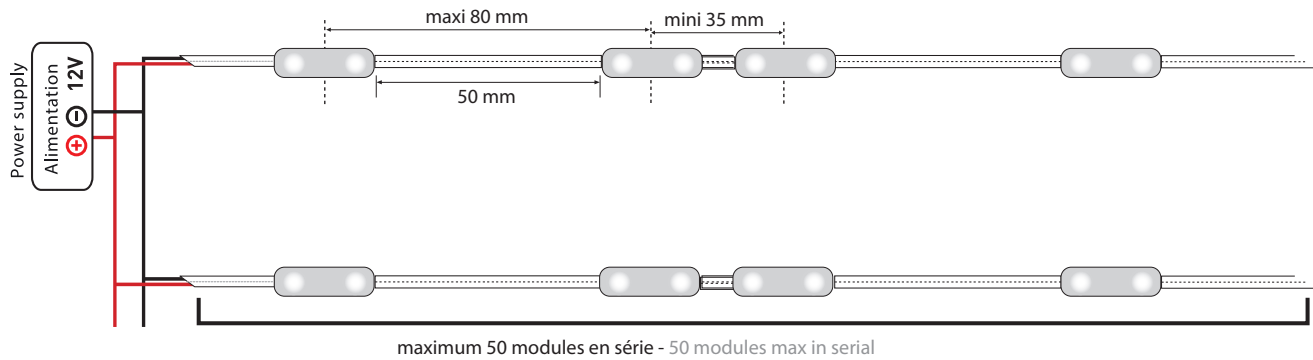

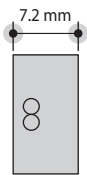

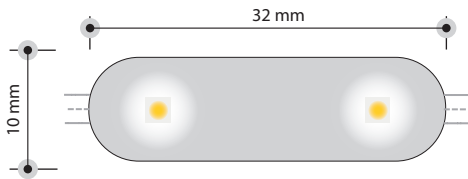

- Very small dimensions
- Anti UV
- IP 68
- 150° angle
