

Logo'pop XL

The Logo'pop XL is a larger version of the Logo'pop XS: same characteristics but with a larger light spot.
When grouped together, the LEDs produce extremely bright spots of colour.
By varying the arrangement and combining the colours, all effects are possible.
Even when switched off, the colour of your sign remains.

- High brightness

→ Can be cut by the unit

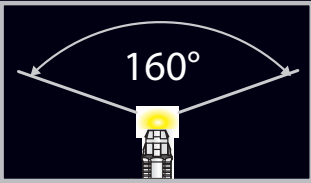

→ 3 year warranty

→ LED colour casing

→ Low power consumption

→ 50 modules in series
- CREE
