

Neon Max RVB

Tested and validated by Domino Sign, the Neon Max RVB offers the best guarantees in terms of LED quality, envelope and colour rendering thanks to the anti-UV treatment, a guaranteed waterproofness thanks to the 5 types of end caps exactly as for the Neon Max.

With its RGB and digital technology, you have the possibility of fixing or changing colours in a global way, but also of using the numerous programmes that allow scrolling in «chase» mode (more than 200 programmes).
