

According to your project plan, the software intelligently calculates all the necessary accessories and the wiring plan to be realized.

Based on more than 20 years of experience in selling and installing linear tube products worldwide, Domino sign has decided to distribute the lucoled by lucoled neon tube range. This range is designed to be used in architectural linear accent lighting applications such as gas station canopies, building outlines... Neon tubes are designed to be installed quickly and easily on any building structure. It features a ready-to-use IP67 JST connector system.

- UV resistant
- IP 67 (waterproof, anti-condensation)
- Standard and RGB colors
- Can be peeled off every 5cm
- Quick and easy installation
- Scraps can be reused
