

Logo'pop

With Domino Sign Logo'pop, you can create shapes of any size and faithfully reproduce lettering or logos. The small size of the LEDs makes it possible to create a fine line of light that can be reinforced by doubling or tripling the LED lines.

Grouped together, the LEDs produce extremely bright colour spots.

By varying the layouts and combining the colours, all effects are possible.

- ☒ High luminosity
- ☒ divisible to the unit
- ☒ 3 year warranty
