

# Dmax NEO

The Domino Sign Dmax NEO is a new generation of LED developed for PMMA face boxes or large letters with very high depths (up to 200 mm).

Its 160° hemispherical lens reduces the number of modules required for your projects.

Incomparable density and rendering of whites.

Thus, with its purchase price and the few modules required, the Dmax NEO makes it possible to make economical signs.

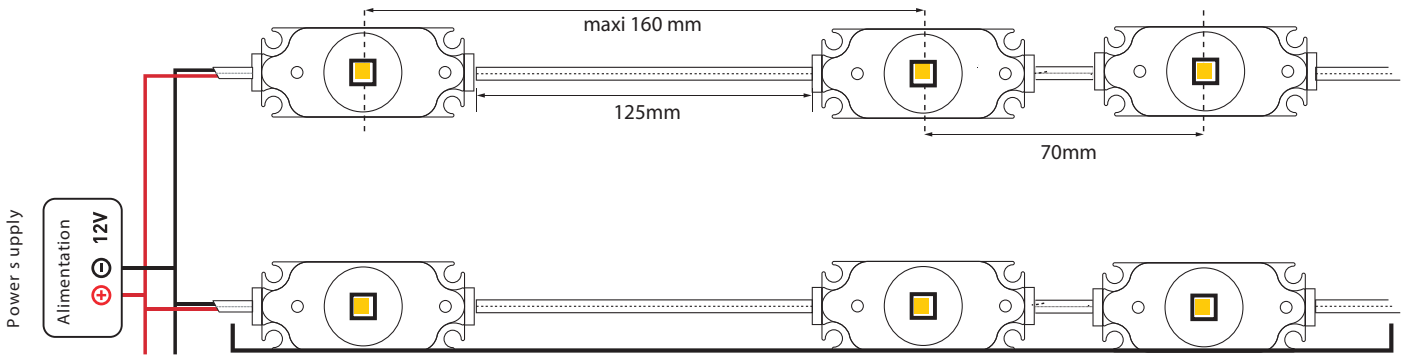

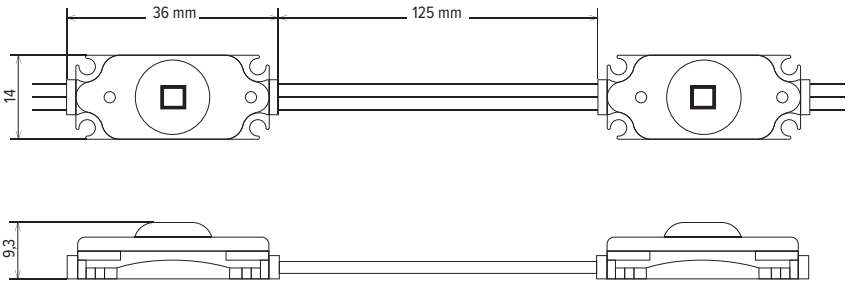

- High power
- Outstanding White quality
- Very good price/performance ratio
- 160° angle
- IP 68
