

Neon Tube BY LUCOLED

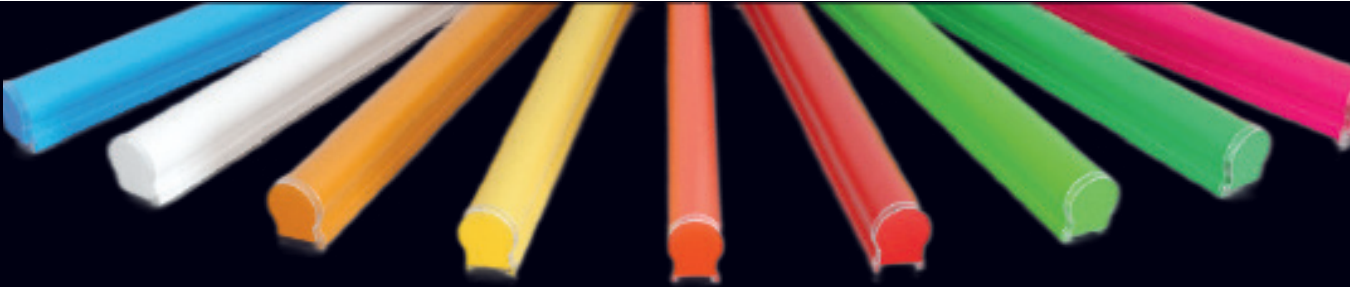

Neon tube software

Based on your project plan, the software calculates all the necessary accessories and the wiring plan to be made.

Based on more than 20 years of experience in selling and installing linear tube products worldwide, Domino sign has decided to distribute the lucoLED by lucoLED neon tube range.

This range is designed to be used in architectural linear accent lighting applications such as petrol station canopies, building surrounds... Neon tubes are designed to be installed quickly and easily on any building structure. It has a ready to use JST IP67 connector system.

- UV resistant
- IP 67 (waterproof, anti-condensation)
- Standard and RVB colours
- Can be cut every 5cm
- Quick and easy installation
- Scraps can be reused
